

AN INTERNSHIP MODEL FOR DEVELOPING ENTREPRENEURIAL SKILLS IN HIGHER EDUCATION

Partnership:

Technical University of Kosice (SK) | ASTRA (SK) | Semmelweis Egyetem (HU) | TREBAG (HU) | Ludwig Maximilians Universität München (DE) | Praxis und Wissenschaft Project gmbh (DE) | Università Telematica Pegaso (IT) | EUROCREA Merchant (IT) | University of Ioannina (GR) | IDEC (GR) | Association of SA & Ltd cos (GR) | eucen (BE) | Stichting Incubator (NL) | CCS Digital Education Limited (IE)

EnterMode will improve entrepreneurial skills of higher education teachers and company staff and foster the entrepreneurial mind-set and skills of higher education students

THE PROJECT WILL:

- Develop higher education—companies partnerships to promote entrepreneurial education
- Launch an integrated learning model for entrepreneurship skills using online serious game
- Train higher education teachers and companies' trainers to offer entrepreneurial learning for students participating in internships
- Help higher education students develop an entrepreneurial mind-set during their internship
- Build a community of practice that involves both higher education and business sector
- Develop learning analytics to adapt the EnterMode programme to different personal and organisational needs

ENTERMODE OUTPUTS:

- Background Study on Entrepreneurial Education in higher education
- Internship model to support higher education students developing entrepreneurial skills
- Creation of a Community of Practice
- Teachers' guide on how to adopt the EnterMode Internship model
- Serious game for developing entrepreneurial skills
- Development of HEIs - company partnerships
- Workshops for HEIs teachers and companies trainers
